

# Inclusivity in the Outdoors

What would you like to discuss??

## Think about

How can we attract a diverse workforce?

## New Start: Paul

If starting a new organisation and want to have a diverse Board - what ideas are there to go about achieving this?

## Small things

What can I do in my day to day role as working outdoors with teenagers that will make a big difference?

In working with young people I often try to treat everyone the same while responding to their individual needs. Is this a good way forwards to being inclusive? What else can I do?!
